

## **What Are the Characteristics of the Ideal Chapter Model?**

The following are deemed to be the characteristics that Zeta Psi wants to see in all of its Chapters. In some cases we recognize that the stated characteristic is not necessarily achievable at every campus due to unique local circumstances. It must be stressed that these are NOT requirements but rather should be considered as GOALS.

1. The ideal chapter is in good financial standing with IHQ
2. The ideal chapter has a organized, structured and engaged Elder group that provides guidance and direction to the undergraduates.
3. The ideal chapter consistently has a GPA higher than the Men's Greek GPA on campus.
4. The ideal chapter graduates 100% of its undergraduates.
5. The ideal chapter has no risk management violations against it.
6. The ideal chapter operates most effectively with a minimum of 40 undergraduates.
7. The ideal chapter has a clear and written process for rush, training/education, risk management and succession planning
8. The ideal chapter recruits leaders from across campus.
9. The ideal chapter participates in at least two philanthropic endeavors each year.
10. The ideal chapter participates in other campus activities as a group.
11. The ideal chapter lives in a house fully occupied by Zetes.
12. Every new initiate successfully earns a Gold Escutcheon.
